## School Accountability Report Card

### Reported Using Data from the 2014-15 School Year

#### Published During 2015-16

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### **DataQuest**

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### **Internet Access**

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

All items on the School Facilities survey were inspected in October 2015.

The District participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems. For the 2014-2015 school year, the District budgeted \$64, 200 for the Deferred Maintenance Program.

**Professional Development (Most Recent Three Years)**

Focus areas for staff development for 2014-2015 are: Safety, Eadms trainging, and continuing with the implementation of Common Core State Standards- specifically Integrated Math implementation, and ELD standards for designated and integrated instruction. These areas of professional development were selected based on the needs of our students, particularly training in the new ELD state standards which are aimed at improving access to our educational programs for all students. EDI (Explicit Direct Instruction)- now the Common Core Cadre- are ongoing trainings for all teachers in our district for the purpose of ensuring a common educational practice in the HUSD classrooms kindergarten through 12th grade. The high school has teacher-coaches to assist in this process through individual meetings and trainings, but also with in-class observation and coaching. Continued training is provided for the implementation of data analysis and data analysis programs with the intent of improving the teachers use of data to inform and improve instruction to help our students achieve academically. Professional Learning Communities were established during which our teachers fully collaborate, discuss, and seek out solutions to better assist instruction, curriculum, and student achievement.
